**NDT Solutions provides state-of-the-art
NDI equipment, customization, and
services for commercial and
government customers.**

With flawless execution, the engineering team provides our customers confidence in product readiness. The NDT team of Level3's are certified by ASNT and provide qualification training to NAS 410, SNT-TC-1A, and ATA-105.

Relentlessly pursuing innovative ideas, everything we bring to market must deliver, without failure.

The urgency of our quest is matched by our commitment to the customers we serve.

Our team has aligned with Commercial Airlines, Original Equipment Manufacturers (OEM's), Sandia National Laboratories, and The Federal Aviation Administration in the development of advanced innovative solutions.

The company has partnered with Spirit Aero Systems and The Boeing Company on providing unique inspection equipment.

INSPECTION PRODUCTS

NDTS has a dynamic manufacturing network which allows for complete development of its products in-house.

Our wide selection of off-the-shelf products can assist our customers in all nondestructive testing methods and techniques.

INSPECTION SERVICES

NDTS provides inspection support within the Aerospace, Energy and Transportation industries on metallic and non-metallic components and structures.

NDI can be performed during production, post-production, or in-service.

INSPECTION METHODS

Computed Tomography - CT
 Eddy Current - ET
 Mag Particle - MT
 Penetrant - PT
 Radiography - RT
 Thermography/Infrared - IR
 Ultrasonic - UT
 Visual - VT
