

NDTS Annual Calibration Plan

MAUS[®] Equipment

Application:

Annual calibration of MAUS[®] Chassis and Laptop, MAUS 1MLZ (FlawInspecta[™]) and FlawInspecta Systems

Benefits & Features:

- Lower overall MAUS[®] ownership/sustainment costs
- Fixed annual calibration fee for easier budgeting and reduced administration
- Reduced down-time of valuable inspection equipment, improved fleet readiness
- Calibration by an OEM approved calibration center with results traceable to NIST standards
- Turn-around-time (TAT) typically \leq 30-days from receipt of equipment
- Round-trip shipping included
- Optional – We do “house calls” - NDTs technician will travel to your site with a typical calibration TAT of 1-day per unit
